

2023 TOYOTA TUNDRA CREWMAX LIMITED TRD PRO
HYBRID V6 3.5L 4WD 5-SEATER AT

Blind Spot Monitor

The available Blind Spot Monitor (BSM) on the Tundra is intended to alert you if a vehicle in the next lane enters your blind spot on either side of the vehicle. When you activate its available Integrated Trailer Brake Controller (ITBC), the system detects the presence of a trailer, determines its length, and activates Trailer Merge Warning—all without the driver's intervention. When reversing out of a tight spot, available Rear Cross-Traffic Alert (RCTA) detects vehicles approaching from either side and alerts you with side mirror indicators and a warning tone. Tundra's advanced safety

Wireless Charging

It's fine if you forgot to bring your smartphone's charging cables with you on your weekend adventure. With an intuitively placed vertical wireless charging deck in the center console, all you have to do is set down your compatible smartphone and wait for the battery to charge.

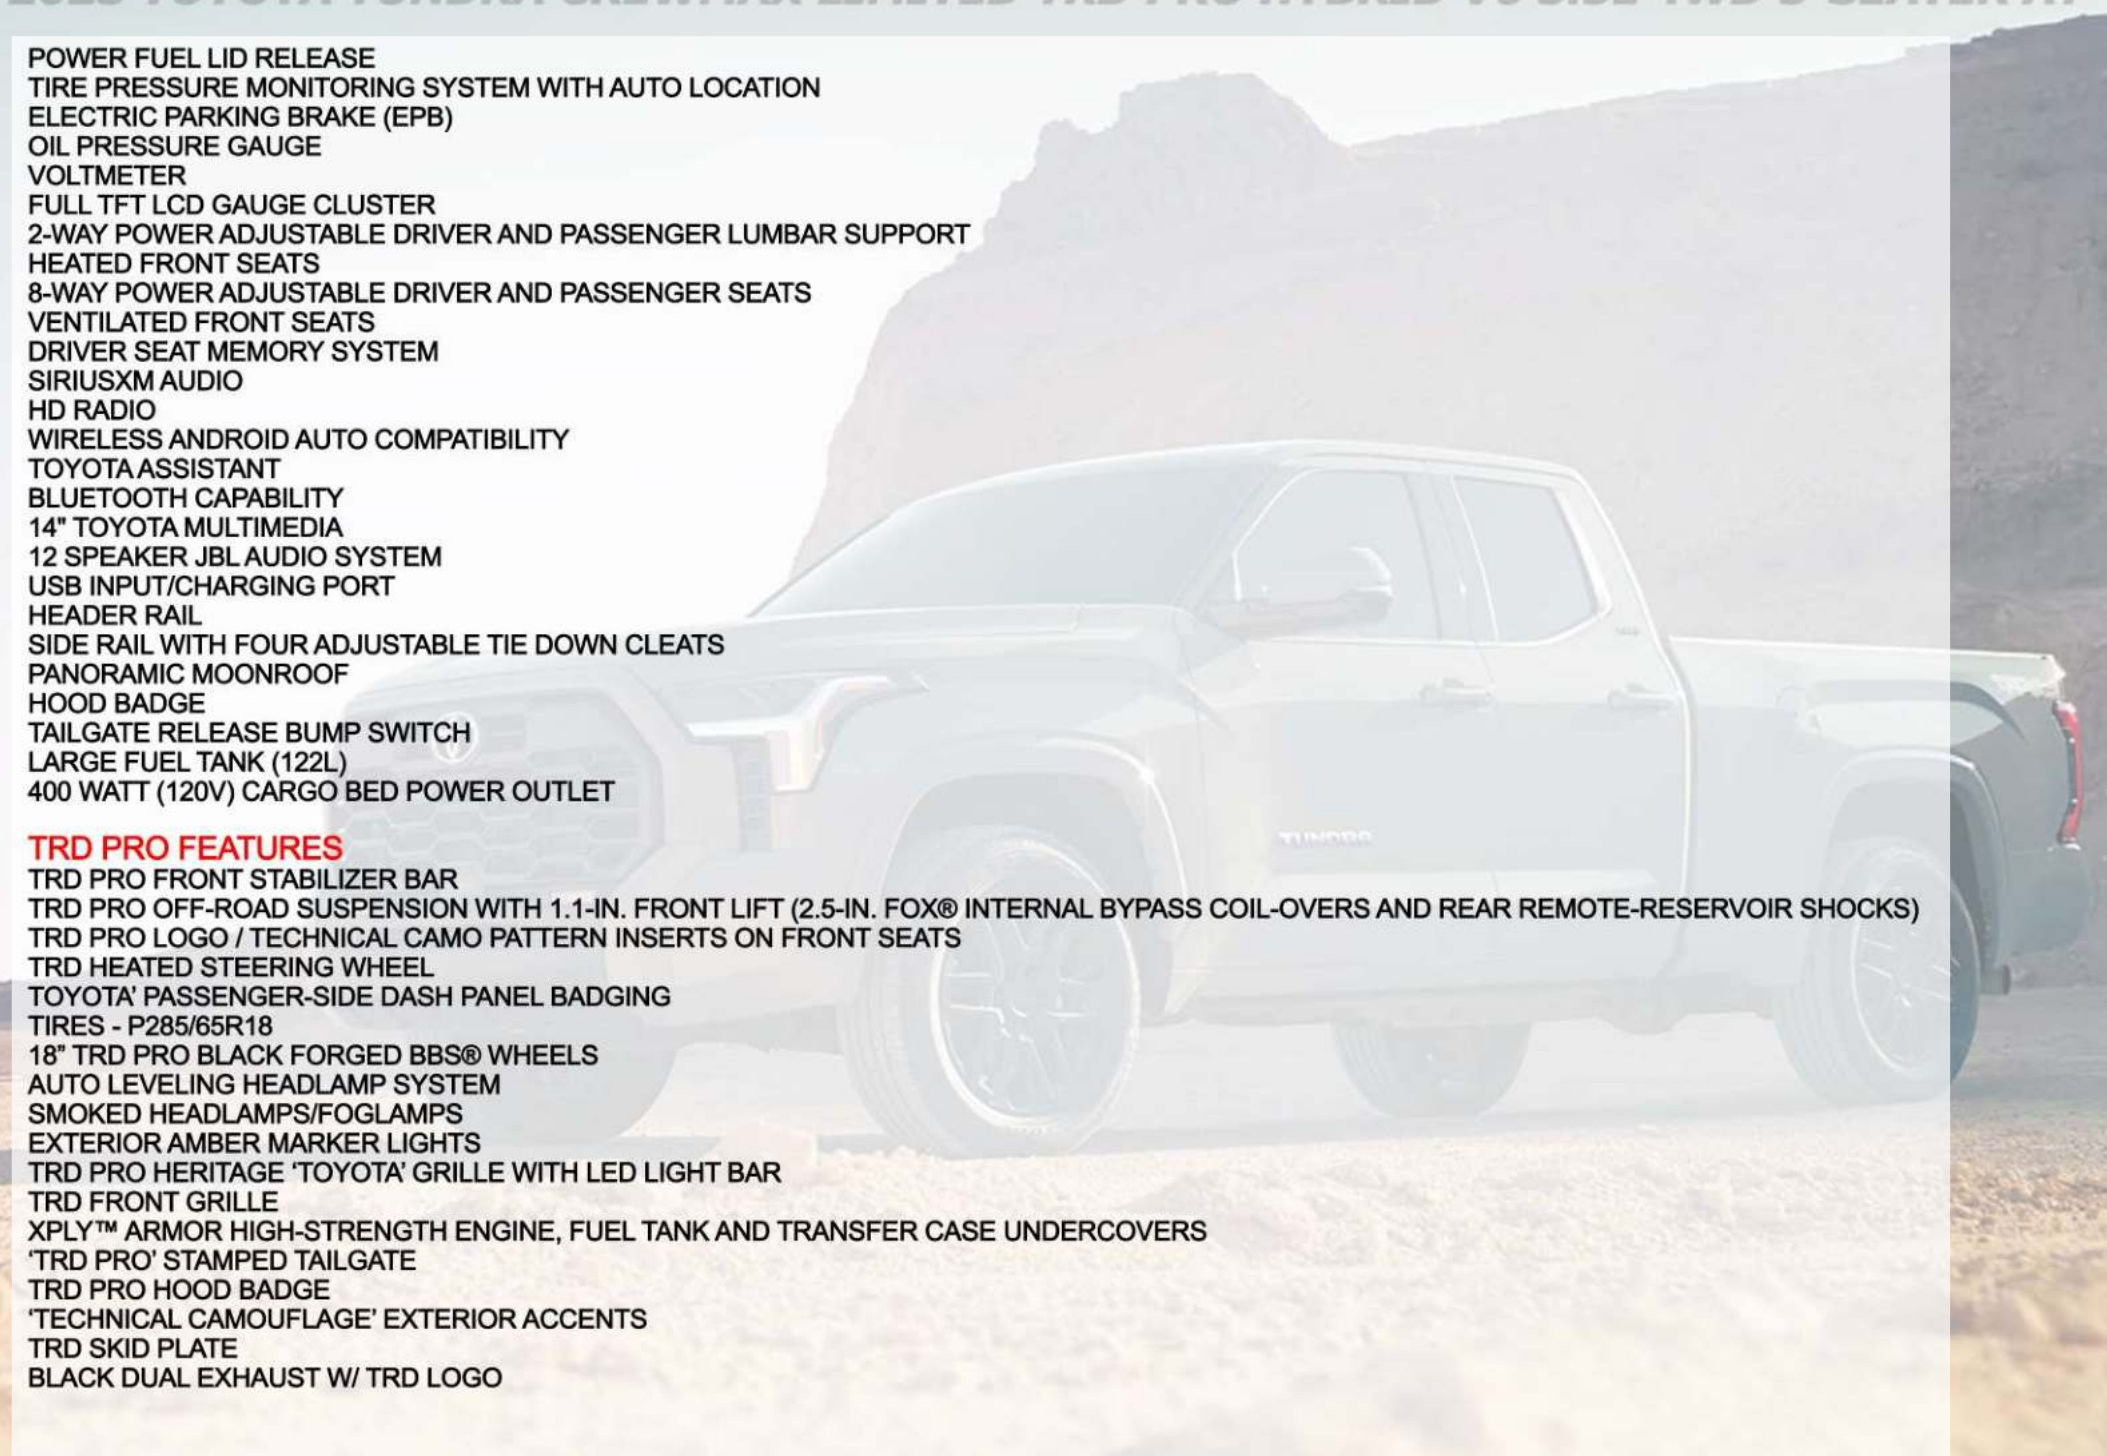

2023 TOYOTA TUNDRA CREWMAX LIMITED TRD PRO HYBRID V6 3.5L 4WD 5-SEATER AT
