

## **2024 MODEL TOYOTA LAND CRUISER 71 HARDTOP DX 2.8L TURBO DIESEL AUTOMATIC TRANSMISSION**

The first-ever Land Cruiser 71 model in 2024 will come equipped with a four-cylinder, 2.8-liter 1GD-FTV diesel engine and a 6-speed automatic transmission. Regardless of the engine, it delivers power to a full time four-wheel-drive 4X4 transfer case with high and low range. The suspension, interior and basic layout of these models are nearly identical to the more famous longer wheelbase 76 series Land Cruisers, but the frame and body is much shorter, with 3 doors boxy shape. This allows the Land Cruiser to be nimbler off-road. This model was popular as a personal off-road transport, and almost exclusively as a commercial and government vehicle.
