# SAHARA MOTORS GROUP

The Toyota hybrid system (THS) in this vehicle is powered by a 2.5-liter Dynamic Force 4-cylinder engine with dual injection and variable valve timing, delivering a combined output of 240 horsepower. Its electronically controlled continuously variable transmission (ECVT) ensures smooth and efficient power delivery, while the electronic on-demand all-wheel-drive system enhances traction and stability. With multiple driving modes—Eco, Normal, and Sport—drivers can tailor their experience to match road conditions and personal preferences. The sealed nickel-metal hydride (Ni-MH) battery supports fuel efficiency, with a combined consumption of 6.2 L/100 km. Additional features such as active noise control, front and rear stabilizer bars, and electronic power steering contribute to a refined and responsive driving experience.

Safety and convenience are at the forefront of this vehicle, boasting an extensive suite of advanced driver assistance systems. The Blind Spot Monitor with Safe Exit Alert, Lane Departure Alert, Lane Tracing Assist, and Road Sign Assist work together to enhance situational awareness and reduce the risk of accidents. The Pre-Collision System (PCS) with Proactive Driving Assist (PDA) provides additional layers of protection, while features like Dynamic Radar Cruise Control (DRCC) and Automatic High Beams (AHB) improve comfort on long journeys. Inside, passengers are safeguarded by dual-stage airbags, side curtain airbags, and knee airbags for both driver and front passenger. The Smart Key System, push-button start, and power back door with a kick sensor add convenience, while the garage door opener and digital key integration further streamline daily use.

Luxury and technology define the interior and exterior of this model, featuring a 12.3-inch digital gauge cluster and Toyota's multimedia system with wireless Apple CarPlay and Android Auto. The 11-speaker JBL audio system delivers high-quality sound, while five USB charging ports ensure passengers stay connected. The cabin is designed for comfort, with leather-trimmed, heated, and ventilated front seats, a driver seat memory system, and heated rear seats. Dual-zone automatic climate control, all-season floor mats, and a heated leather-wrapped steering wheel elevate the driving experience. On the outside, 21-inch alloy wheels, power-folding mirrors, rain-sensing wipers, and LED headlamps with washers provide style and functionality. The panoramic fixed-glass roof with a power sunshade enhances the spacious feel, while the Advanced Technology Plus Package includes a panoramic view monitor, intuitive parking assist with auto braking, and Traffic Jam Assist for seamless manoeuvrability in urban settings.
